

# Half Finger Nylon Glove Liners

---

BCR® Single Knit Nylon Glove Liners are made of high-quality, 100% continuous filament, pre-shrunk nylon. They are lightweight, soft, and comfortable to wear. A full-finger design enables total protection for even the most sensitive glove users. Half-fingered design covers palm and parts of fingers to permit tactile use while wicking moisture from palms.

ISO Class	No
Construction	Knitted
Material	Nylon

## Additional Info:

Single-knit nylon is a thinner and more comfortable glove liner. Nylon glove liners are heavier and more durable and can withstand more laundry washes. Reusable, ambidextrous, seamless construction. For use in laboratories and manufacturing environments. Can be used alone as inspection gloves to prevent fingerprints on circuit boards, glassware, lenses, optics and other critical surfaces. Non-shedding, polyurethane headbands reduce particulation. Sterile double-gloving comfort and dexterity.
