

# Clorox Hydrogen Peroxide Cleaner

## Product Features:

- Speed: the fastest non-bleach disinfecting times available; 30 seconds to 1 minute contact time on bacteria and viruses
- Excellent product aesthetics: No harsh chemical fumes or odors, for patient and staff comfort
- Compliance: Can meet 38 bacteria and virus contact times with one wipe on a 4 square foot surface
- Value: Covers greater surface area with fewer wipes
- Noncorrosive: does not leave a solid residue that can damage your equipment over time
- Designed for use of a broad range of healthcare surfaces; recommended for plastics and laminated surfaces, whereas isopropyl alcohol will attack some forms of plastic, rubber and coatings
- Usage: gloves should be worn

## Product Description :

If your wipe cannot keep large surface areas wet long enough, it can lead to costly re-wiping. Clorox Healthcare™ Hydrogen Peroxide Cleaner Disinfectant Wipes keep larger surfaces wet longer, enabling you to use less wipes when compared to leading competitors. Less wipes means better value and less worrying. Clorox Healthcare™ Hydrogen Peroxide Cleaner Disinfectants can be used on a broad range of surfaces. They provide one-step cleaning, disinfecting and deodorizing of hard, nonporous surfaces.
